**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

As a consumer of media Im VERY UPSET with the proposed changes to choices we have and the way we access the Internet / medias.

Im writing to demand that there is MORE competition in the Internet Access market, not Less. Newer technologies, and privacy protections are important to me and those are delivered by local community network type Internet Access operations.

In my town of Davis CA, the local provider (OmSoft) has given our school system vital avenues to increase student use of technology. It has kept our community informed during critical emergencies, is easy to work with and is a business that actively supports and understands our community.

It is our familys request that the Internet Market remain in tact. That consumers have options instead of feeling forced to work with companies that arent in line with personal beliefs. It will only cause more confusion and conflict if choices are eliminated.

Please do not take our options away.

Sara Eley
